

BHAVYA SHREE

Python & Full Stack Developer

Bengaluru, Karnataka, India | bhavya.infoscience@gmail.com | +91-7975735221
www.linkedin.com/in/bhavya-shree-ab8a08420 | <https://github.com/bhavyashree05>

PROFESSIONAL SUMMARY

Bachelor of Computer Applications graduate (2026) with hands-on experience across three internships in Python, Django, Flask, and full stack web development. Built and deployed D-FOOD, a full stack food donation management platform, using Python, Flask, SQLite, and JavaScript with role-based authentication and third-party API integration. Strong fundamentals in object-oriented programming, relational databases, REST APIs, and responsive web design. Seeking a Software Developer / Python Developer / Full Stack Developer role.

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA : 8.35

2026

Rajadhani Degree College, Bengaluru, India

TECHNICAL SKILLS

- Programming Languages: Python, C, basic JavaScript, PHP, R
- Web Technologies: HTML, CSS, Flask, Bootstrap, Django
- Databases: SQLite, MySQL, PostgreSQL
- Tools & Platforms: Git, GitHub, VS Code, XAMPP, MySQL Workbench, Canva
- Core Concepts: Object-Oriented Programming (OOP), CRUD Operations, Responsive Web Design, REST API Basics

INTERNSHIP EXPERIENCE

Python Developer Intern and course

Hope Foundation

Hope Foundation

- Built Python-based mini projects applying object-oriented programming (OOP) principles to solve practical problems.
- Developed and queried relational data models using Django and MySQL, strengthening backend and database fundamentals.

Full Stack Developer Intern and course

Internspot Innovation Pvt. Ltd.

Internspot Innovation Pvt. Ltd. (AICTE & MSME Certified)

- Developed responsive, interactive web pages using HTML, CSS, and JavaScript.
- Built and connected Python/Flask backends to front-end interfaces using SQL databases, covering the full request-response cycle of a web application.

Full Stack Developer Intern

Atlasia

Atlasia

- Contributed to full stack web application development across front-end and back-end layers.
- Applied practical, production-oriented development practices to deliver functional application features.

PROJECTS

D-FOOD — Food Donation Management System

Personal Project

- Designed and built a full stack food donation platform using Python, Flask, SQLite, HTML, CSS, and JavaScript.
- Implemented Donor, Receiver, and Admin modules with role-based authentication, food upload, and food request workflows.
- Integrated the Telegram Bot API to send real-time notifications to receivers when new donations are listed.
- Built a fully responsive UI and structured relational schema and CRUD operations in SQLite.

Bhagiiee Cafe — Cafe Management System

Personal Project

- Developed a console-based Python application using Django and MySQL modeling real-world vending machine logic, including ingredient validation and order handling using functions with payment system and conditionals.

CERTIFICATIONS

- Full Stack Development Internship + course — AICTE and MSME Certified , Internspot Innovation Pvt. Ltd.
- Python Development Internship + course — Hope Foundation
- Full Stack Developer Internship — Atlasia
